

## Fish Friendly Flood Gate

*Fish Friendly Flood Gate designed for low-resistance opening.*

**Engineered for performance. Designed for nature.**

Fish Friendly Flood Gates support fish passage by reducing opening resistance and extending flow access windows.

### TECHNICAL SPECIFICATIONS

- **Mounting:** Offset top hinge headwall or pipe mounted
- **Flap Type:** Free-swinging with low-resistance opening
- **Material:** 316 stainless steel
- **Delay:** Adjustable delay via hinge position
- **Sizes:** Custom built to match existing structures

### KEY ATTRIBUTES

- Opens with minimal flow resistance
- Simplified design, low maintenance
- Extends flap-open periods for fish passage
- Effective in low-flow environments
- Suits both new builds and retrofits

### INSTALLATION OPTIONS

- Direct fit to headwalls or pipe mounted
- Modification kit for existing floodgates
- Supplied with installation guidelines or ATS-led install
